Global Release 8.45

Date: June 26, 2025

Mundhavni Cheema, Product Management

The content contained herein ("Confidential Information") are the confidential property of HHAeXchange and may not be copied or distributed outside the HHAeXchange organization without the express written consent of HHAeXchange. Distribution of this document or disclosure of any Confidential Information set forth herein to any party other than the intended recipient(s) of this presentation is expressly prohibited.

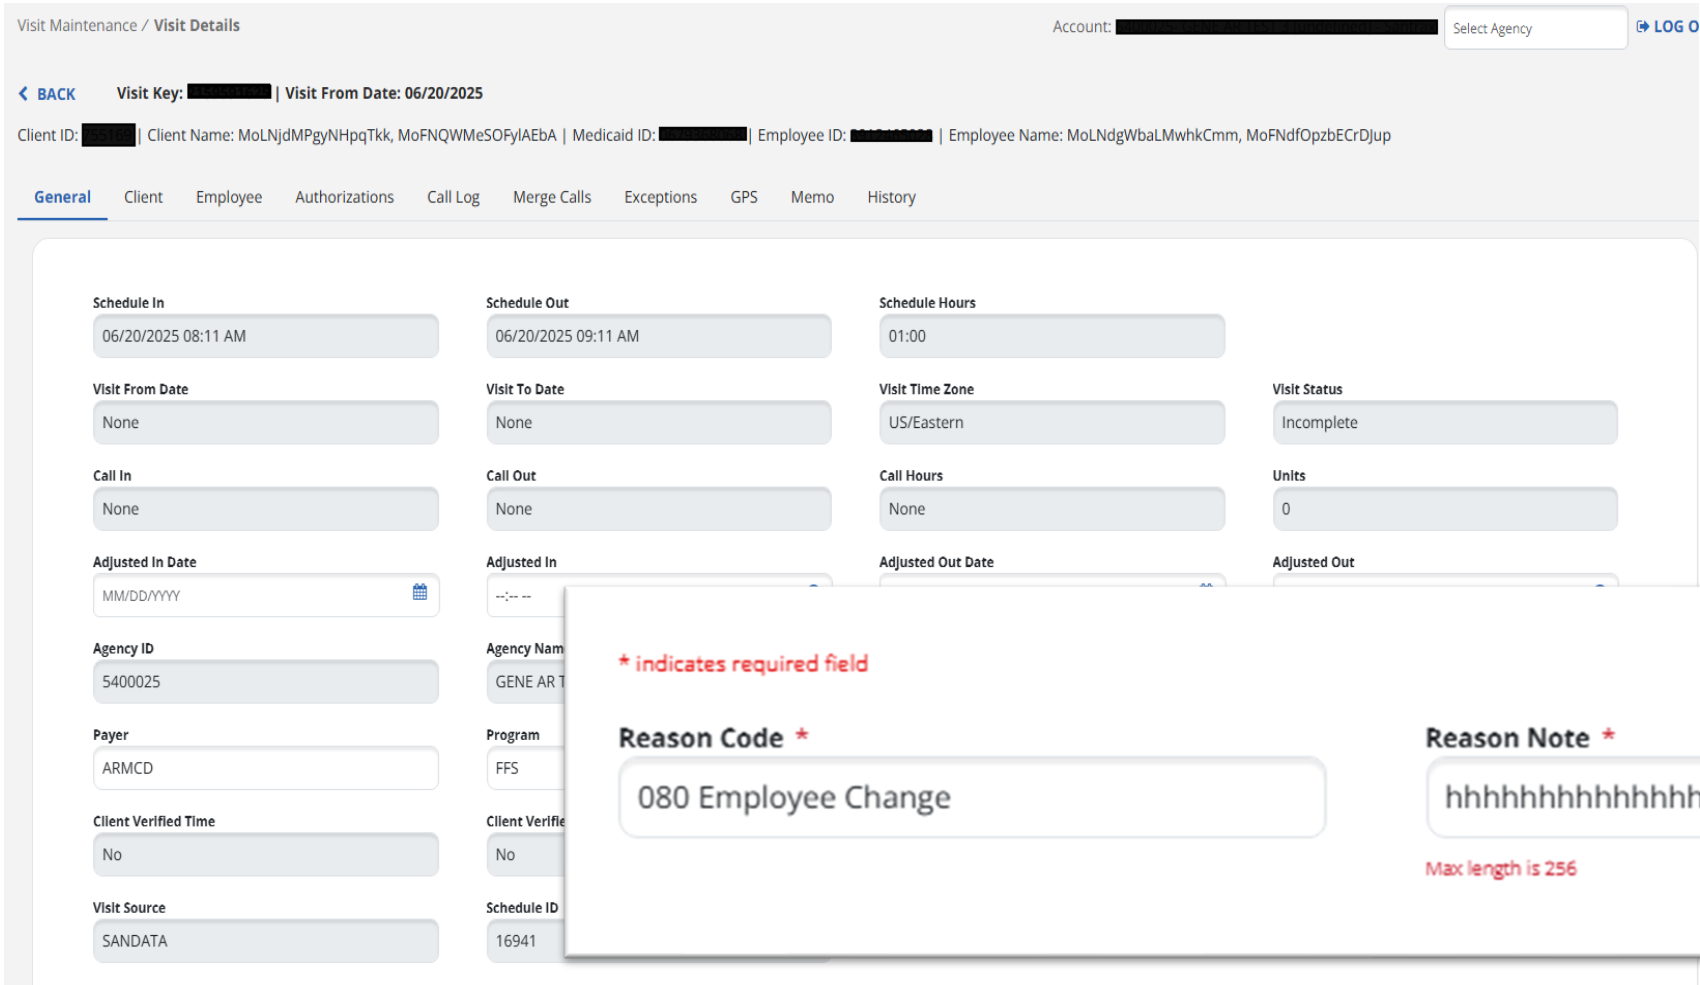

## ► NTTMS-4285: Restrict 'Reason Note' to 256 characters in EVV Enhanced.

- EVV Enhanced Only
- Issue (Before Enhancement)

Users encountered an error upon submitting the form when the "Reason Note" field exceeded 256 characters. The error occurred post-submission without clear feedback, leading to confusion and a poor user experience.
- Enhancement (After Improvement)

To improve usability and prevent submission errors, the "Reason Note" field in the EVV Enhanced Visit Maintenance form now enforces a 256-character limit. This proactive validation allows users to correct input before submission, ensuring a smoother and more intuitive experience.

## Global Release 8.44.2

### Date: June 5, 2025

### Mundhavni Cheema, Product Management

The content contained herein ("Confidential Information") are the confidential property of HHAeXchange and may not be copied or distributed outside the HHAeXchange organization without the express written consent of HHAeXchange. Distribution of this document or disclosure of any Confidential Information set forth herein to any party other than the intended recipient(s) of this presentation is expressly prohibited.

## ▶ Service Field Not Enforced as Required When Creating Manual Visits

- EVV Enhanced Only
- Issue (Before Enhancement)  
Previously, the "Service" field was optional when creating manual visits, which allowed flexibility but could result in incomplete visit details.
- Enhancement: (After Improvement)  
The "Service" field is now required when creating manual visits, ensuring all entries are complete and aligned with provider documentation standards.
